RE: Please Support Legislation to Help Build Families

Dear Senator/Representative LAST NAME:

I am writing to you because family is one of the fundamental values in our country. But when infertility strikes -- as it does for 1 in 8 couples -- the dream of a family is shattered. Infertility is a disease according to the World Health Organization, and those who long to have children find themselves unable to become pregnant or to sustain a pregnancy. Today, we ask your support for legislation that will help American men and women overcome infertility and reach their life dreams.

The Women Veterans and Families Health Services Act, S 700 and HR 1681, will allow Veterans with a service connected injury to access IVF medical treatments, which the Department of Veterans Affairs is banned from offering. Make #IVF4Vets permanent!

The Adoption Tax Credit Refundability Act of 2017, S. 937 and HR 2476, would help thousands of children each year find forever homes. Find out more at www.adoptiontaxcredit.org.

I stand with advocates from RESOLVE: The National Infertility Association and the American Society for Reproductive Medicine who are in Washington, D.C. to share their stories and advocate for American families.

[Please insert information about your personal story and the impact that cost has had on your ability to create your family.]

Thank you for your support of the Adoption Tax Credit and making #IVF4Vets a permanent medical service offered by the VA and thank you for helping millions of Americans build their families.

Sincerely,

YOUR NAME
